49. Percentage of water in plasma is -

- (a) 60% (b) 70%
- (c) 80% (d) 90%

50. With reference to the blood in a normal person, which one of the following statements is correct?

- (a) Compared to arteries, veins are less numerous and hold less of the body's blood at any given time
- (b) Blood cells constitute about 70 percent of the total volume of the blood
- (c) White blood cells (WBC) are made by lymph nodes only
- (d) The blood has more platelets than WBC

51. Which one of the following satellites was successfully launched by India on 29th September, 2012 ?

- (a) GSAT-6
- (b) GSAT-9
- (c) GSAT-10
- (d) GSAT-12

52. ISRO has successfully launched GSAT-6A satellite from which rocket vehicle?

- (a) GSLV-F07
- (b) GSLV-F09
- (c) GSLV-F05
- (d) GSLV-F08

53. When T.V. is switched on:

- (a) Audio and video both start simultaneously
- (b) Audio is heard immediately but video starts later because video needs some warm up time
- (C) Video starts immediately but audio is heard later because sound travels at a lesser speed than light
- (d) It depends on the T.V. brand

54. The basic units of sound are called

- (a) Morphemes
- (b) Phonemes
- (c) Semanteme
- (d) Syntax

55. The technique used to transmit audio signals in television broadcast is -

- (a) Amplitude modulation
- (b) Pulse code modulation
- (C) Frequency modulation
- (d) Time dimension multiplication.

CURRENT- 10

56. Consider the following statements with reference to the Konark Sun Temple:

- 1. It is also referred to as the Black Pagoda.
- 2. It was built by King Narasimhadeva I.
- 3. It is a UNESCO world heritage site .

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 1 and 2 only
- (c) 2 and 3 only
- (d) 1, 2 and 3

57. Consider the following statements about the 'Wet bulb temperature':

- 1. It is the lowest temperature to which air can be cooled by the evaporation of water into the air at a constant pressure.
- 2. It is a limit that considers heat and humidity beyond which humans can not tolerate high temperatures.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

58. Which water body is located between the Bosphorus and Dardanelles straits?

- (a) Aegean Sea
- (b) Black Sea
- (c) Sea of Azov
- (d) Sea of Marmara

- 1. Article 312 of the constitution entitles the parliament to create one or more All India Services (AIS) common to the Union and the States.**
- 2. The AIS officers are recruited by the Union Government and their services are allotted under various State cadres.**
- 3. The cadre controlling authority of all AIS is the Department of Personnel and Training (DoPT).**

Which of the statements given above is/are correct?

- (a) 1 only (b) 1 and 2 only
 (c) 2 and 3 only (d) 1, 2 and 3

60. Consider the following statements with reference to Vacuum Bombs:

- 1. It uses oxygen from the air for a large, high-temperature blast.**
- 2. It causes significantly greater devastation than a conventional bomb of comparable size.**
- 3. The use of these bombs is prohibited under the Hague Conventions of 1899 and 1907.**

Which of the statements given above is/are correct?

- (a) 1 and 2 only (b) 1 and 3 only
 (c) 1 only (d) 1, 2 and 3

61. Consider the following statements with reference to Daylight Harvesting:

- 1. It is a method of saving the energy costs associated with lighting using available sunlight.**
- 2. It automatically dims or adjusts the brightness of light in response to the amount of natural light available in a space. .**

Which of the statements given above is/are correct?

- (a) 1 only (b) 2 only
 (c) Both 1 and 2 (d) Neither 1 nor 2

62. Consider the following statements with reference to Sagar Parikrama:

- 1. It is a navigation journey to be conducted in all coastal states/Union Territories.**
- 2. It is a part of the Azadi Ka Amrit Mahotsava.**
- 3. It will conduct interaction programmes with fishermen and fisher communities.**

Which of the statements given above is/are correct?

- (a) 1 only
 (b) 1 and 2 only
 (c) 2 and 3 only
 (d) 1, 2 and 3

63. Consider the following statements regarding Defence Acquisition Procedure (DAP):

- 1. It omits the 'Buy (Global)' procurement category for defence equipment.**
- 2. It increases the Indigenous Content (IC) requirement for all projects from 40% to 50% earlier to 50% to 60%, depending upon category.**

Which of the statements given above is/are correct?

- (a) 1 only (b) 2 only
 (c) Both 1 and 2 (d) Neither 1 nor 2

64. Consider the following statements:

- 1. World Wildlife Day is celebrated every year on the 3rd of March.**

2. Recovering key species for ecosystem restoration was the theme for World Wildlife Day 2022.

Which of the statements given above is/are not correct?

65. Consider the following statements with reference to the Joint Comprehensive Plan of Action (JCPOA) also known as the Iran Nuclear Deal:

1. It is a deal between Iran and the United States of America only.
 2. Under the deal Iran agreed to significantly cut its store of enriched uranium.

Which of the statements given above is/are correct?

COMPUTER – 5

66. 'Project Loon', sometimes seen in the news, is related to :

- (a) Waste management technology
 - (b) Wireless communication technology
 - (c) Solar power production technology
 - (d) Water conservation technology

67. The full form of I.B.M. is :

- (a) Indian Business Machine
 - (b) International Business Machine
 - (c) Italian Business Machine
 - (d) Integral Business Machine

68. What is the full form of http?

- (a) Hypertext Transfer Program
 - (b) Hypertext Transfer Protocol
 - (C) Hypertool Transfer Program
 - (d) Hypertool Transfer Protocol

69. URL stands for :

- (a) Unique Resource Locator
 - (b) Universal Resource Locator
 - (c) Uniform Resource Locator
 - (d) United Resource Locator

70. FTP stands for :

- (a) File Translate Protocol
 - (b) File Transit Protocol
 - (c) File Typing Protocol
 - (d) File Transfer Protocol

LABOUR LAW- 15

71. Under Workmen's Compensation Act, 1923, which of the following are considered as dependent of deceased workman for the purpose of paying compensation?

ANSWER SHEET

MATH – 10

1. ANS- B

	Weight of fruit kg	percentage of water	percentage of fruit pulp
Fresh fruit →	X = 100	68	32
Dru fruit →	T	20	80

32% of X = 80% of T

$$\frac{32}{100} \times 100 = \frac{80}{100} \times T$$

$$T = 40 \text{ kg}$$

2. ANS-B

According to question

$$3C + 8G = \text{Rs. } 47200 \dots \dots \dots \text{(i)}$$

$$8C + 3G = 47200 + 53000 = \text{Rs. } 100200 \dots \dots \dots \text{(ii)}$$

Add equ (i) and (ii)

$$11C + 11G = 147200$$

$$C + G = 13400 \dots \dots \dots \text{(ii)}$$

Substruct eq (i) and (ii)

$$-5C + 5G = -53000$$

$$C - G = 10600 \dots \dots \dots \text{(iv)}$$

$$C = 12000$$

$$G = 1400$$

GET IT ON

Google Play

Cost of 1 cow = Rs. 12000

3. According to question

$$A : B : C$$

$$\text{Efficiency} \quad 2 : 1$$

$$2 : 1$$

$$4 : 2 : 1 \text{ units/ days}$$

$(A + B)$'s one day work is $(4 + 2)$

Units = 6 units and they complete in 4 days

So total work : $6 \times 4 = 24$ units

And C complete whole work in

$$= \frac{24 \text{ units}}{1 \text{ units/ days}} = 24 \text{ days}$$

4. Ans .c

Length $4 \rightarrow 5$

Breadth $5 \rightarrow 4$

Area $20 \rightarrow 20$

Area remains unchanged

5. Ans . D

$$\text{Avg. speed} = \frac{2xy}{x+y}$$

$$= \frac{2 \times 16 \times y}{16 + y}$$

$$6.4 = \frac{32y}{16 + y}$$

$$102.4 + 6.4y = 32y$$

$$102.4 = 25.6y$$

$$Y = \frac{102.4}{25.6} = 4 \text{ km/hr}$$

6. Ans .a

Distance covered in 1st 2 hr = $2 \times 20 = 40$ km

Time taken to cover 60 km

$$\text{Distance} = \frac{60}{10} = 6 \text{ hr.}$$

$$\text{Avg. speed} = \frac{\text{Total Distance}}{\text{Total Time}}$$

$$\frac{100}{2+6} = \frac{100}{8} = 12\frac{1}{2} \text{ km/hr}$$

7. Ans. C

According to question total gain = $a + b + \frac{ab}{a+b}$

8. Ans. A

Let the number is = x

According to question $= 3x - \frac{3}{5}x = 60$

$$15x - 3x = 60 \times 5$$

$$12x = 300$$

$$X = 25$$

9. Ans . b

Let the first part is = x

Second part is = y

$$15x + 11y = 195 \dots\dots\dots(i)$$

$$x + y = 27 \dots \dots \dots \text{(ii)}$$

Solve equation (i) and (ii)

$$x = 17$$

Y = 10

$$\frac{x}{y} = \frac{17}{10}$$

10. Ans . b

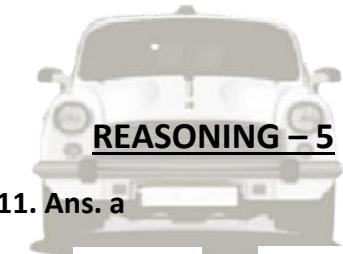

$$\text{Speed} = \frac{D}{T} = \frac{125}{30} \text{ m/sec}$$

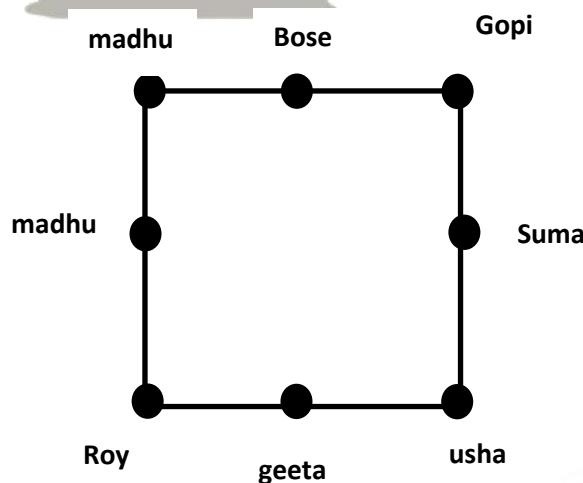

$$= \frac{125}{30} \times \frac{18}{5} \text{ km/hr}$$

= 15km/hr

11. Ans. a

740-88-2-6666
740-88-3-6666**D is grandfather of A****15. Ans. 1****GS – HISTORY- 10****16.Ans. (d)**

The proposal of Local Self-Government was introduced in 1882 during the tenure of Lord Ripon, which is considered as the beginning of modern Self-Government in India. Lord Ripon is considered to be the Father of 'Local Self- Government' in India. He ordered provincial governments to analyze the financial resources of their provinces so that it could be fixed that general expenses on which items can be transferred to the local administration.

17.Ans.(a)

Alexander Cunningham was a British army engineer who later took an interest in the history and archaeology of India. He is called as the 'Father of Indian Archaeology'. Following his retirement from the army in 1861, he was appointed as archaeological surveyor to the government of India.

18. Ans.(c)

The Ancient Monuments Preservation Act, 1904 was passed in 1904 in British India during the period of Governor- General Lord Curzon. It was expedient to provide for the preservation of ancient monuments, for the exercise of control over traffic in antiquities and over-excavation in certain places, and for the protection and acquisition in certain cases of ancient monuments and for objects of archaeological, historical or artistic interest. He allocated 50000 pounds for the preservation of ancient monuments. Lord Curzon during his tenure integrated and centralized Archaeological Survey of India (ASI) and appointed John Marshall as new Director-General in 1901.

19. Ans.(c)

"Kallar' were the people related to Mudiraja (Mudhuraja) community of south India. The people of Kallar tribes are known for revolt against the British rule. This tribe is associated with the Madurai region of South India.

20. Ans.(a)

The uprising of the Bhils (1818-1831) was largely concentrated in Khandesh (present-day Maharashtra & Gujarat). Khandesh came under British occupation in 1818. The Bhils considered them as outsiders. On the instigation of Trimbakji, rebel minister of Baji Rao II, they revolted against the Britishers. Besides this, some agitation also occurred in Rajasthan and Madhya Pradesh in 19th - 20th Century

21. Ans. (b)

Haipou Jadonang was the first tribal leader who was inspired by Gandhiji. He was the main leader of Manipur's Naga tribe. He, along with Rani Gaidinliu started social and religious reforms including freedom fighting.

22. Ans. (d)

Expansion in limited areas, lack of unity and planning, no unified leadership and discipline, better resources of the British, role of traitors, the return of British troops from Crimea, no support of native rulers, non-cooperation of Sikhs and Punjabis as well as educated Indian middle class etc. were major causes behind the failure of the revolt of 1857.

23. Ans.(a)

Asbab-e-Baghawat-e-Hind, written by Sir Syed Ahmed Khan was published in 1859 in which the cause of the revolt of 1857 had been discussed.

24. Ans.(a)

Dr. R. C. Mazumdar, the eminent historian, stated in his book "The Sepoy Mutiny and the rebellion of 1857" that "the so-called first national war of independence of 1857 was neither first, nor national, nor a war of independence".

25. Ans. (a)

The major result of 1857 revolt was the proclamation on November 1st, 1858 by Queen Victoria. This was proclaimed by Lord Canning during Allahabad Court. The ruthless, exploitative era of the East India Company was ended and a new era of British rule to be governed directly by British Crown began. This proclamation included the abandonment of the policy of conquest and annexation, adherence to the principles of secularism and religious neutrality and same judicial facilities to everyone without any discrimination. Among all these only abandonment of the policy of conquest and annexation was followed.

POLITY – 10

26. Ans.(c)

According to the 6th Amendment in the Constitution of State of Jammu and Kashmir, the nomenclature of the Executive Head of the Government of Jammu and Kashmir was changed from 'Sadar-e-Riyasat' to 'Governor' in 1965. Under the Jammu and Kashmir Reorganisation Act, 2019 provision has been made to administer the union territory of Jammu and Kashmir and Ladakh by the President through the Lieutenant Governor appointed by him.

27. Ans. (b)

The State Legislative Assembly can participate in the election of the President of India, Members of Rajya Sabha and the Members of the Legislative Council. But cannot participate in the election of the Vice President of India. So option (b) is the correct answer.

28. Ans.(a)

The Chief Secretary of State is chosen by Chief Minister and appointed by the Governor of the State. Thus, statement (1) is correct. The Chief Secretary is the head of State's administrative machinery and has control on the administrative body of the State. There is no fixed tenure of the Chief Secretary of State. So, statement (2) is not correct.

29. Ans. (b)

Under Article 143(1) of the Indian Constitution, the Supreme Court of India act as an advisory body to the President of India who can ask for advice on any matter of law or fact of public importance.

30. Ans. (b)

In August 2002, the then President Dr. Abdul Kalam sought advice of the Supreme Court under Article 143 in connection with the controversy between the Election Commission and the Government on elections in Gujarat. The issues related to the limits on the powers of the Election Commission under Article 324, the impact of Article 174 on the Jurisdiction and powers of the Commission and whether the Commission could recommend promulgation of the President's rule in a State.

31. Ans.(a)

A Larger Bench of seven Judges in the Kesavananda Bharati Case unequivocally declared that the power of judicial review over legislative action vested in the High Courts under Article 226 and in the Supreme Court under Article 32 of the Constitution is an integral and essential feature of the Constitution, constituting part of its basic structure. Article 227 defines; every High Court shall have superintendence over all courts and tribunals throughout the territories in relation to which it exercises Jurisdiction. These three articles were declared the inviolable basic structure of the constitution of India in Kesavananda Bharati Case.

32. Ans.(a)

The Parliamentary Committees are of two kinds-Standing Committees and Ad-hoc Committees. Among the Standing Committees, there are three Financial Committees (1) Committees on Estimates, (2) Public Accounts, and (3) Public Undertakings. Excluding certain exceptional committees, the ratio of Lok Sabha and Rajya Sabha members in all other joint committees is approximately 2:1.

33. Ans.(c)

The concept of Calling Attention is given by India. It is a new concept of the modern Parliamentary procedure. Question and supplementary questions are asked during this parliamentary procedure. The Parliament can move the call attention motion to call the attention of a minister towards any matter of urgent public importance. It is like an Adjournment Motion, but It does not have the part of condemnation.

34. Ans. (b)

A starred question is one to which a member desires an oral answer in the House and which is distinguished by an asterisk (*) mark. When a question is answered orally, supplementary questions can be asked thereon. Only 20 questions can be listed for oral answer on a day. An unstarred question is one which is not called for oral answer in the House and on which no supplementary questions can consequently be asked.

35. Ans. (d)

The Parliament of India exercises control over the functions of the council of Minister through Adjournment Motion Question Hour and Supplementary Question This can be understood as: **Adjournment Motion** : The primary object of an adjournment motion is to draw the attention of the government to a matter of urgent public importance in respect of which a starred question, discussion of short duration or a resolution with requisite notice shall be too late. **Question Hour** is the first hour of every sitting of Parliament generally reserved for the asking and answering of questions. Question asked to a Minister are of three types- A starred Question to which a member desires an oral answer in the House, supplementary questions can be asked thereon. Only 20 questions can be listed for oral answer on a day), An Unstarred Question (one which is not called for oral answer in the House and on which no supplementary questions can be asked) and A Short Notice Question (one which is related to matter of urgent public importance and can be asked with shorter notice than the period of notice prescribed for an ordinary question and followed by supplementary questions).

ECONOMICS – 10

36.Ans. (c)

The Indian Union Ministry of Finance has the following five departments - Department of Economic Affairs, Expenditure, Revenue, Financial Services and Disinvestment.

The Department of Expenditure is a nodal department for monitoring the public financial management system of the Central Government and matters relating to the financial condition of the states.

37.Ans. (a)

Declaration of long-term fiscal policy in India was made by V.P. Singh. The policy related to public expenditure, taxation, public debt and mismanagement is called fiscal policy.

38.Ans. (b)

Inflation rates are based on the wholesale price index. It is known that inflation is a situation in which the value of goods rises and the value of currency falls. Inflation arises when there is a relatively rapid increase in the circulation of currency compared to the production of goods and services in the country. Now CSO is being used to estimate consumer price index based inflation rate since February 2012. The base year of CPI is 2012. It is noteworthy that in October, 2020 the ministry of labour and Employment has released a new series of consumer price index for Industrial workers (CPI-IW) based on the year 2016. Prior to this, the base year for the CPI-IW was 2001.

39.Ans. (c)

During the period of question, the correct descending order of the gross domestic saving of given sectors in India are as follows-Household sector > Private corporate sector > Public sector. Gross Domestic Saving in Indian economy in percent of GDP during the year 2017-18 has been at 32.4 percent. In which household sector have largest share. According to Economic survey 2020-21 sectoral contribution in gross domestic saving is follows.

40. Ans. (a)

The National Institution for Transforming India, also called NITI Aayog.

41. Ans. (d):

GDP growth for 2008-09 was 6.7 per cent.

42.Ans: (b)

The Forward Markets Commission (FMC) was the chief regulator of futures markets in India. As of July 2014, it regulated Rs 17 trillion worth of commodity trades in India. It is headquartered in Mumbai and this financial regulatory agency is overseen by the Ministry of Finance.

43.Ans: (b)

The 'gilt-edged' market relates to government securities. Government securities include government promissory note, national savings certificate, national savings scheme, carrier-mortgage, etc. Banks can easily provide loans against these securities because the value of these securities is constant and they are considered safe.

44. Ans. (d)

Blue revolution is related to increase in fisher production

45. Ans. (d)

In Indian agriculture, more people are engaged in agricultural work. The small size of holdings, backward production techniques etc. are the reasons for low productivity.

SCIENCE- 10

46. Ans. (d)

There will be less friction due to radial tyres by which the speed of motor car will increase up. They offer reduced fuel consumption due to less rolling resistance. The fuel injection is a method or system for admitting fuel into the internal combustion. By this, the use of fuel will reduce. The catalytic converter with exhaust system will save the car engine from heating, which increases its efficiency. The streamlined body

47. Ans.(c)

An internal combustion engine transforms the chemical energy in fuel to mechanical rotational energy. Diesel engine, which are in existence for over a century, are the most versatile and economical engine used in a heavy vehicle. Today's direct-injection diesel engines are more rugged, powerful, durable and reliable than gasoline engines and use fuel much more efficiently as well.

48. Ans.(C)

The use of natural gas in power generation provides a cleaner alternative to coal and other fossil fuels, reducing carbon and other emissions and resulting in both immediate and longterm benefits for public health and the environment.

49.Ans. (d)

Plasma is the liquid portion of blood-protein-salt solution which is 90 to 92% of water, constitutes about 55% of blood volume. Plasma contains albumin (protein), fibrinogen and globulins (including antibodies).

50.Ans. (d)

Platelets help in the blood clotting process (or coagulation) by gathering at the site of an injury, sticking to the lining of the injured blood vessel and forming a platform on which blood coagulation can occur. Platelets are only about 20% of the diameter of red blood cells. The normal platelet count is 150,000-350,000 per microlitre of blood, but since platelets are so small, they make up just a tiny fraction of the blood volume. The ratio of platelets to red blood cells in a healthy adult is 1:10 to 1:20. Red blood cells are the most numerous blood cell, about 5,000,000 per microlitre. Red blood cells make up about 40% of our total blood volume, a measure called the hematocrit. White blood cells are the largest of the blood cells but also the fewest. There are normally only 4,000 to 11,000 white blood cells per micro litre. Other three statements are incorrect with reference to the blood in a normal person.

51. Ans.(c)

On September 29th, 2012 India successfully launched the heaviest telecommunication satellite GSAT-10 by the Ariane-5 rocket from Guiana Space Centre.

52. Ans. (d)

GSAT-6A is a high power S-band communication sattellite of ISRO, which was launched by GSLV-F08 on March 29, 2018 from SDSC SHAR, Sriharikota. Its mission life is 10 years.

53.Ans.(a)

When T.V. is switched on, audio and video start simultaneously. In old models of television, audio was heard immediately but the video starts as it needs some warm up time. But in modern televisions, audio synchronizer is used to correct this sync error

54. Ans. (b)

Phonemes is the basic unit of sound (phonology). It is the smallest unit of sound that may cause a change of meaning within a language, but that does not have meaning by itself.

55. Ans.(c)

In a television broadcast, the picture signals are transmitted by amplitude modulation and audio signals are transmitted by frequency modulation.
